Professional Summary

I am a Computer Science Engineering student seeking an entry-level software developer position where I can apply my skills in Java, SQL, and web technologies. I want to work on real-world projects, improve my problem-solving abilities, learn new technologies, and contribute to the growth and success of the organization.

SKILLS

Programming Languages:

- Core Java: OOPs, Multithreading, Collections, Exception Handling
- Java 8 Features: Streams, Lambda Expressions, Map, Filter, Optional
- Problem Solving using Java (Number, Arrays, Strings)

Back-End Development:

- Spring Framework: Spring Core
- J2EE: JDBC, Servlets, JSP

Front-End & Web Technologies:

- HTML5, CSS3, JavaScript
- Libraries: React JS.

Database Management:

- MySQL

Development & Build Tools:

- Git, GitHub, Maven

IDEs & Code Editors:

- Eclipse, Spring Tool Suite (STS), Visual Studio Code.

Soft Skills:

- Team Leadership, Effective Communication, Continuous Learning

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

KNS institute of technology – Bengaluru, Karnataka

CGPA: 7.9

2022 – 2026

Internships

DHEE CODING LAB:

Technologies & Tools: Java 8, Spring Framework, React.js, MySQL, Git, GitHub

- Completed a Java Full Stack Development internship at Dhee Coding Lab, where I developed responsive user interfaces using **HTML, CSS, JavaScript, and React.js**.
- built scalable backend services using **Core Java, Spring**, Gained practical experience in designing, debugging, and implementing real-world application features.

PROJECTS

Hospital Management System

- **Technologies & Tools:** Core Java, J2EE (JSP, Servlets, JDBC), MySQL, HTML, CSS, Apache Tomcat, Git, GitHub.
- **Description:** Designed and developed a Hospital Management System using J2EE technologies to manage doctor, patient, and appointment details. Implemented user authentication, appointment booking, profile management, and CRUD operations using JSP, Servlets, JDBC, and MySQL while following an MVC-based architecture.

Portfolio Website

- **Technologies used:** HTML5, CSS3, JavaScript, Git, GitHub, Vercel
- **Description:** Designed and developed a responsive personal portfolio website to showcase technical skills, projects, education, and professional profile. Implemented a clean and user-friendly interface using HTML5, CSS3, and JavaScript, Integrated downloadable resume, social media profiles, and contact information for easy recruiter access. Deployed the website using GitHub and Vercel, enabling continuous deployment and live hosting.

CERTIFICATIONS

- **JAVA Full Stack Developer Intern- Dhee Coding lab**

Feb 2026 – May 2026
